- Resistant to stressful situations
- Ability to learn and master new systems
- Can either work in a group or manage it

DOWNLOAD RESUME

Joanna Gołofit

FRONTEND DEVELOPER

I've gained knowledge connected with working for a big international organization in a few departments and improved my English a lot. I've learnt how to deal with stressful situations and how to prioritize my tasks in order to keep people and customers I worked with satisfied. I enjoy improving the way I work, seeking new solutions, optimizing tasks, implementing new knowledge. Also sharing what I know with my colleagues is what I like most!

Projects

1. React - movie search
2. Country info finder - JS
3. Images finder - JS
4. HTML & CSS
5. HTML & CSS - a group project
6. CV
